DESCRIPTION OF CHANGE: (Required)

Panduit will discontinue repairing within our tool repair facility the below eighty legacy tools in obsolete status. A few of these tools have been in circulation before 2001 and all are considered out-of-date tools. Components and repair frequency have both become scarce over the years. If the tool is in Decline, Use Up or Obsolete status, Panduit will no longer repair the tool in our facility. Panduit's BlackFin battery operated tools will always be repaired at a Klauke Tool repair facility. The below list of tools has been part of a private label agreement between Panduit and various manufacturing partners. This includes Greenlee Tools, Huskie Tools and Klauke Tools. If your customer has ones of the below legacy tools, please direct them to the following repair centers moving forward.
