| Kategorie                              | Integrierte Schaltungen (ICs) > Linear - Verstärker - |
| Teilstatus                             | 405 pcs Stock                                         |
| Spannungsversorgung, Single / Dual (±) | 2.7 V ~ 11 V                                          |
| Spannung - Eingangs-Offset             | 20µV                                                  |
| Supplier Device-Gehäuse                | 10-LFCSP-WD (3x3)                                     |
| Slew Rate                              | 145 V/µs                                              |
| Serie                                  | -                                                     |
| Verpackung                             | Tape & Reel (TR)                                      |
| Verpackung / Gehäuse                   | 10-WFDFN Exposed Pad, CSP                             |
| Ausgabetyp                             | Rail-to-Rail                                          |
| Betriebstemperatur                     | -40°C ~ 125°C                                         |
| Zahl der Schaltkreise                  | 2                                                     |
| Befestigungsart                        | Surface Mount                                         |
| Strom - Versorgung                     | 950µA                                                 |
| Strom - Ausgang / Kanal                | 106mA                                                 |
| Strom - Eingangsruhe                   | 1.2µA                                                 |
| Verstärkertyp                          | Voltage Feedback                                      |
| -3db Bandbreite                        | 170MHz                                                |
