| Beschreibung                       | DIODE RECT 1600V 100A D1 PAC                        |
| Kategorie                          | Diskrete Halbleiterprodukte > Dioden-Gleichrichter- |
| Teilstatus                         | 2661 pcs Stock                                      |
| Spannung - Forward (Vf) (Max) @ If | 1.4V @ 300A                                         |
| Spannung - Sperr (Vr) (max)        | 1600V (1.6kV)                                       |
| Supplier Device-Gehäuse            | D1                                                  |
| Geschwindigkeit                    | Standard Recovery >500ns, > 200mA (Io)              |
| Serie                              | -                                                   |
| Verpackung                         | Bulk                                                |
| Verpackung / Gehäuse               | D1                                                  |
| Betriebstemperatur - Anschluss     | -40°C ~ 150°C                                       |
| Befestigungsart                    | Chassis Mount                                       |
| Diodentyp                          | Standard                                            |
| Diodenkonfiguration                | 1 Pair Common Anode                                 |
| Strom - Sperrleckstrom @ Vr        | 5mA @ 1600V                                         |
| Strom - Richt (Io) (pro Diode)     | 100A                                                |
