| Hersteller                      | IDT (Integrated Device Technology)             |
| Beschreibung                    | IC SYNTHESIZER 700MHZ 28-PLCC                  |
| Kategorie                       | Integrierte Schaltungen (ICs) > Uhr / Timing - |
| Teilstatus                      | 2567 pcs Stock                                 |
| Spannungsversorgung             | 3.135 V ~ 3.465 V                              |
| Art                             | Frequency Synthesizer                          |
| Supplier Device-Gehäuse         | 28-PLCC (11.5x11.5)                            |
| Serie                           | -                                              |
| Verhältnis - Eingang: Ausgang   | 1:1                                            |
| Verpackung                      | Tape & Reel (TR)                               |
| Verpackung / Gehäuse            | 28-LCC (J-Lead)                                |
| PLL                             | Yes                                            |
| Ausgabe                         | LVPECL                                         |
| Betriebstemperatur              | 0°C ~ 70°C                                     |
| Zahl der Schaltkreise           | 1                                              |
| Befestigungsart                 | Surface Mount                                  |
| Eingang                         | Crystal                                        |
| Frequenz - Max                  | 700MHz                                         |
| Teiler / Multiplikator          | Yes/No                                         |
| Differenzial - Eingang: Ausgang | No/Yes                                         |
