| Artikelnummer                  | MCP4912-E/ST                                     |
| Hersteller                     | Micrel / Microchip Technology                    |
| Beschreibung                   | DAC 10BIT DUAL W/SPI 14TSSOP                     |
| Kategorie                      | Integrierte Schaltungen (ICs) > Datenerfassung - |
| Teilstatus                     | 2698 pcs Stock                                   |
| Spannung - Versorgung, digital | 2.7 V ~ 5.5 V                                    |
| Spannung - Versorgung, analog  | 2.7 V ~ 5.5 V                                    |
| Supplier Device-Gehäuse        | 14-TSSOP                                         |
| Einschwingzeit                 | 4.5µs (Typ)                                      |
| Serie                          | -                                                |
| Referenztyp                    | External                                         |
| Verpackung                     | Tube                                             |
| Verpackung / Gehäuse           | 14-TSSOP (0.173", 4.40mm Width)                  |
| Ausgabetyp                     | Voltage - Buffered                               |
| Betriebstemperatur             | -40°C ~ 125°C                                    |
| Anzahl der D / A-Wandler       | 2                                                |
| Anzahl der Bits                | 10                                               |
| INL / DNL (LSB)                | ±1, ±0.2                                         |
| Differenzausgang               | No                                               |
| Data Interface                 | SPI                                              |
| Die Architektur                | String DAC                                       |
