

| Spezifikationen         |                                                                                         |
|-------------------------|-----------------------------------------------------------------------------------------|
| Teilenummer             | A2F200M3F-1PQG208                                                                       |
| Hersteller              | Microsemi                                                                               |
| Beschreibung            | IC FPGA 256K FLASH 208QFP                                                               |
| Kategorie               | <a href="#">Integrierte Schaltungen (ICs)</a> > <a href="#">Eingebettet - System On</a> |
| Teilstatus              | 2641 pcs Stock                                                                          |
| Supplier Device-Gehäuse | 208-PQFP (28x28)                                                                        |
| Geschwindigkeit         | 100MHz                                                                                  |
| Serie                   | SmartFusion®                                                                            |
| Primärattribute         | ProASIC®3 FPGA, 200K Gates, 4608 D-Flip-Flops                                           |
| Peripherals             | DMA, POR, WDT                                                                           |
| Verpackung              | Tray                                                                                    |
| Verpackung / Gehäuse    | 208-BFQFP                                                                               |
| Betriebstemperatur      | 0°C ~ 85°C (TJ)                                                                         |
| Anzahl der E / A        | MCU - 22, FPGA - 66                                                                     |
| MCU RAM                 | 64KB                                                                                    |
| MCU-Flash               | 256KB                                                                                   |
| Core-Prozessor          | ARM® Cortex®-M3                                                                         |
| Connectivity            | EBI/EMI, Ethernet, I²C, SPI, UART/USART                                                 |
| Die Architektur         | MCU, FPGA                                                                               |
