| Kategorie                      | Integrierte Schaltungen (ICs) > Datenerfassung - |
| Teilstatus                     | 529 pcs Stock                                    |
| Spannung - Versorgung, digital | 4.5 V ~ 6.3 V                                    |
| Spannung - Versorgung, analog  | 4.5 V ~ 6.3 V                                    |
| Supplier Device-Gehäuse        | 14-SOIC                                          |
| Serie                          | -                                                |
| Abtastrate (pro Sekunde)       | 31.25k                                           |
| Referenztyp                    | External                                         |
| Verhältnis - S / H: ADC        | -                                                |
| Verpackung                     | Tube                                             |
| Verpackung / Gehäuse           | 14-SOIC (0.295", 7.50mm Width)                   |
| Betriebstemperatur             | 0°C ~ 70°C                                       |
| Anzahl der Eingänge            | 1                                                |
| Anzahl der Bits                | 8                                                |
| Anzahl der A / D-Wandler       | 1                                                |
| Eingabetyp                     | Differential, Pseudo-Differential, Single Ended  |
| Eigenschaften                  | -                                                |
| Data Interface                 | SPI                                              |
| Konfiguration                  | MUX-ADC                                          |
| Die Architektur                | SAR                                              |
