| Beschreibung                      | IC REG CTRLR BUCK 24SOIC                               |
| Kategorie                         | Integrierte Schaltungen (ICs) > PMIC - Spannungsregler |
| Teilstatus                        | 2616 pcs Stock                                         |
| Spannung - Versorgung (Vcc / Vdd) | 4.75 V ~ 5.25 V                                        |
| Topologie                         | Buck                                                   |
| Synchrongleichrichter             | -                                                      |
| Supplier Device-Gehäuse           | 24-SOIC                                                |
| Serie                             | -                                                      |
| Serielle Schnittstellen           | -                                                      |
| Verpackung                        | Tape & Reel (TR)                                       |
| Verpackung / Gehäuse              | 24-SOIC (0.295", 7.50mm Width)                         |
| Ausgabetyp                        | PWM Signal                                             |
| Ausgangsphasen                    | 2                                                      |
| Ausgangskonfiguration             | Positive                                               |
| Betriebstemperatur                | 0°C ~ 70°C (TA)                                        |
| Anzahl der Ausgänge               | 2                                                      |
| Funktion                          | Step-Down                                              |
| Frequenz - Umschaltung            | 80kHz ~ 1MHz                                           |
| Duty Cycle (Max)                  | 75%                                                    |
| Kontrollfunktionen                | Current Limit, Enable, Frequency Control, Power Good   |
| Taktsynchronisation               | No                                                     |
