| Beschreibung                           | IC COMP PP I/O SNGL 1.6V 8DIP                        |
| Kategorie                              | Integrierte Schaltungen (ICs) > Linear - Vergleicher |
| Teilstatus                             | 3214 pcs Stock                                       |
| Spannungsversorgung, Single / Dual (±) | 1.6 V ~ 5.5 V                                        |
| Spannung - Eingangs-Offset (Max)       | 7mV @ 5.5V                                           |
| Art                                    | General Purpose                                      |
| Supplier Device-Gehäuse                | 8-PDIP                                               |
| Serie                                  | -                                                    |
| Propagation Delay (Max)                | 8µs                                                  |
| Verpackung                             | Tube                                                 |
| Verpackung / Gehäuse                   | 8-DIP (0.300", 7.62mm)                               |
| Ausgabetyp                             | CMOS, Push-Pull, Rail-to-Rail, TTL                   |
| Betriebstemperatur                     | -40°C ~ 85°C                                         |
| Anzahl der Elemente                    | 1                                                    |
| Befestigungsart                        | Through Hole                                         |
| Hysterese                              | 6.5mV                                                |
| Strom - Ruhende (Max)                  | 1µA                                                  |
| Strom - Ausgabe (Typ)                  | -                                                    |
| Strom - Eingangsruhe (Max)             | 1pA @ 5.5V                                           |
| CMRR, PSRR (Typ)                       | 70dB CMRR, 80dB PSRR                                 |
