| Beschreibung            | IC CRYPTO TPM TWI 28TSSOP                     |
| Kategorie               | Integrierte Schaltungen (ICs) > Eingebettet - |
| Teilstatus              | 5369 pcs Stock                                |
| Spannungsversorgung     | 3 V ~ 3.6 V                                   |
| Supplier Device-Gehäuse | 28-TSSOP                                      |
| Serie                   | CryptoController™                             |
| RAM-Größe               | -                                             |
| Programmspeichertyp     | EEPROM                                        |
| Verpackung              | Tube                                          |
| Verpackung / Gehäuse    | 28-TSSOP (0.173", 4.40mm Width)               |
| Betriebstemperatur      | -40°C ~ 85°C                                  |
| Anzahl der E / A        | -                                             |
| Befestigungsart         | Surface Mount                                 |
| Schnittstelle           | I²C, 2-Wire Serial                            |
| Core-Prozessor          | AVR                                           |
| Controller Serie        | -                                             |
| Anwendungen             | Secure Communications                         |
