| Hersteller               | Allegro MicroSystems, LLC.                                              |
| Beschreibung             | SENSOR CURRENT HALL 20A DC                                              |
| Kategorie                | <a href="#">Sensoren, Transducer</a> > <a href="#">Aktuelle Wandler</a> |
| Teilstatus               | 2695 pcs Stock                                                          |
| Spannungsversorgung      | 3 V ~ 3.6 V                                                             |
| Serie                    | -                                                                       |
| Sensortyp                | Hall Effect, Differential                                               |
| Empfindlichkeit          | 132mV/A                                                                 |
| Reaktionszeit            | 4µs                                                                     |
| Polarisation             | Unidirectional                                                          |
| Verpackung               | Tape & Reel (TR)                                                        |
| Verpackung / Gehäuse     | 8-SOIC (0.154", 3.90mm Width)                                           |
| Ausgabe                  | Ratiometric, Voltage                                                    |
| Betriebstemperatur       | -40°C ~ 150°C                                                           |
| Anzahl der Kanäle        | 1                                                                       |
| Befestigungsart          | Surface Mount                                                           |
| Linearität               | ±1.5%                                                                   |
| Frequenz                 | DC ~ 120kHz                                                             |
| Zur Messung              | DC                                                                      |
| Strom - Versorgung (Max) | 14mA                                                                    |
| Strom - Erfassung        | 20A                                                                     |
| Genauigkeit              | ±0.8%                                                                   |
