| Kategorie                      | Integrierte Schaltungen (ICs) > Datenerfassung - |
| Teilstatus                     | 931 pcs Stock                                    |
| Spannung - Versorgung, digital | 2.7 V ~ 5.5 V                                    |
| Spannung - Versorgung, analog  | 2.7 V ~ 5.5 V                                    |
| Supplier Device-Gehäuse        | 10-MSOP                                          |
| Serie                          | microPOWER™                                      |
| Abtastrate (pro Sekunde)       | 7.5                                              |
| Referenztyp                    | External                                         |
| Verhältnis - S / H: ADC        | -                                                |
| Verpackung                     | Tube                                             |
| Verpackung / Gehäuse           | 10-TFSOP, 10-MSOP (0.118", 3.00mm Width)         |
| Betriebstemperatur             | 0°C ~ 70°C                                       |
| Anzahl der Eingänge            | 1                                                |
| Anzahl der Bits                | 20                                               |
| Anzahl der A / D-Wandler       | 1                                                |
| Eingabetyp                     | Differential                                     |
| Eigenschaften                  | -                                                |
| Data Interface                 | SPI                                              |
| Konfiguration                  | ADC                                              |
| Die Architektur                | Sigma-Delta                                      |
