| Beschreibung                      | IC OFFLINE SWIT OTP OCP HV 8SMD                       |
| Kategorie                         | Integrierte Schaltungen (ICs) > PMIC - AC-DC-Wandler, |
| Teilstatus                        | 2653 pcs Stock                                        |
| Spannung - Versorgung (Vcc / Vdd) | -                                                     |
| Spannung - Durchschlag            | 700V                                                  |
| Topologie                         | Flyback                                               |
| Supplier Device-Gehäuse           | SMD-8B                                                |
| Serie                             | TinySwitch®-II                                        |
| Leistung (W)                      | 23W                                                   |
| Verpackung                        | Tape & Reel (TR)                                      |
| Verpackung / Gehäuse              | 8-SMD (7 Leads), Gull Wing                            |
| Ausgangsisolierung                | Isolated                                              |
| Betriebstemperatur                | -40°C ~ 150°C (TJ)                                    |
| Befestigungsart                   | Surface Mount                                         |
| Interne (r)                       | Yes                                                   |
| Frequenz - Umschaltung            | 132kHz                                                |
| Fehlerschutz                      | Current Limiting, Open Loop, Over Temperature, Short  |
| Auslastungsgrad                   | 65%                                                   |
| Kontrollfunktionen                | EN                                                    |
