| Hersteller                        | Micrel / Microchip Technology                 |
| Beschreibung                      | IC MCU 8BIT 32KB FLASH 64VQFP                 |
| Kategorie                         | Integrierte Schaltungen (ICs) > Eingebettet - |
| Teilstatus                        | 2560 pcs Stock                                |
| Spannung - Versorgung (Vcc / Vdd) | 3 V ~ 5.5 V                                   |
| Supplier Device-Gehäuse           | 64-VQFP (10x10)                               |
| Geschwindigkeit                   | 48MHz                                         |
| Serie                             | 89C                                           |
| RAM-Größe                         | 768 x 8                                       |
| Programmspeichertyp               | FLASH                                         |
| Programmspeichergröße             | 32KB (32K x 8)                                |
| Peripherals                       | LED, POR, WDT                                 |
| Verpackung                        | Tape & Reel (TR)                              |
| Verpackung / Gehäuse              | 64-LQFP                                       |
| Oszillatortyp                     | Internal                                      |
| Betriebstemperatur                | -40°C ~ 85°C (TA)                             |
| Anzahl der E / A                  | 46                                            |
| EEPROM Größe                      | -                                             |
| Datenwandler                      | -                                             |
| Kerngröße                         | 8-Bit                                         |
| Core-Prozessor                    | 80C51                                         |
| Connectivity                      | SmartCard, SPI, UART/USART, USB               |
