Spezifikationen

|                          |                                         |
|--------------------------|-----------------------------------------|
| Artikelnummer            | ACS758LCB-100U-PFF-T                    |
| Hersteller               | Allegro MicroSystems, LLC.              |
| Beschreibung             | SENSOR CURRENT HALL 100A DC             |
| Kategorie                | Sensoren, Transducer > Aktuelle Wandler |
| Teilstatus               | 1297 pcs Stock                          |
| Spannungsversorgung      | 3 V ~ 5.5 V                             |
| Serie                    | Automotive, AEC-Q100                    |
| Sensortyp                | Hall Effect, Open Loop                  |
| Empfindlichkeit          | 40mV/A                                  |
| Reaktionszeit            | 4µs                                     |
| Polarisation             | Unidirectional                          |
| Verpackung               | Tube                                    |
| Verpackung / Gehäuse     | 5-CB Formed Leads, PFF                  |
| Ausgabe                  | Ratiometric, Voltage                    |
| Betriebstemperatur       | -40°C ~ 150°C                           |
| Anzahl der Kanäle        | 1                                       |
| Befestigungsart          | Through Hole                            |
| Linearität               | ±1.25%                                  |
| Frequenz                 | DC ~ 120kHz                             |
| Zur Messung              | DC                                      |
| Strom - Versorgung (Max) | 13.5mA                                  |
| Strom - Erfassung        | 100A                                    |
| Genauigkeit              | ±2.4%                                   |
