| Beschreibung                           | IC COMPARATOR 2.7V-5V RR SOT23-5                     |
| Kategorie                              | Integrierte Schaltungen (ICs) > Linear - Vergleicher |
| Teilstatus                             | 2223 pcs Stock                                       |
| Spannungsversorgung, Single / Dual (±) | 2.7 V ~ 5 V                                          |
| Spannung - Eingangs-Offset (Max)       | 6mV @ 5V                                             |
| Art                                    | General Purpose                                      |
| Supplier Device-Gehäuse                | SOT-23-5                                             |
| Serie                                  | -                                                    |
| Propagation Delay (Max)                | 20ns                                                 |
| Verpackung                             | Tape & Reel (TR)                                     |
| Verpackung / Gehäuse                   | SC-74A, SOT-753                                      |
| Ausgabetyp                             | Push-Pull, Rail-to-Rail                              |
| Betriebstemperatur                     | -40°C ~ 85°C                                         |
| Anzahl der Elemente                    | 1                                                    |
| Befestigungsart                        | Surface Mount                                        |
| Hysterese                              | 7.5mV                                                |
| Strom - Ruhende (Max)                  | 1.8mA                                                |
| Strom - Ausgabe (Typ)                  | -                                                    |
| Strom - Eingangsruhe (Max)             | 0.95µA @ 5V                                          |
| CMRR, PSRR (Typ)                       | 85dB CMRR, 85dB PSRR                                 |
