| Hersteller                        | Zilog                                         |
| Beschreibung                      | IC MCU 8BIT 4KB ROM Z8                        |
| Kategorie                         | Integrierte Schaltungen (ICs) > Eingebettet - |
| Teilstatus                        | 2614 pcs Stock                                |
| Spannung - Versorgung (Vcc / Vdd) | 3 V ~ 5.5 V                                   |
| Supplier Device-Gehäuse           | -                                             |
| Geschwindigkeit                   | 12MHz                                         |
| Serie                             | Z8®                                           |
| RAM-Größe                         | 237 x 8                                       |
| Programmspeichertyp               | ROM                                           |
| Programmspeichergröße             | 4KB (4K x 8)                                  |
| Peripherals                       | POR, WDT                                      |
| Verpackung                        | -                                             |
| Verpackung / Gehäuse              | -                                             |
| Oszillatortyp                     | Internal                                      |
| Betriebstemperatur                | 0°C ~ 70°C (TA)                               |
| Anzahl der E / A                  | 24                                            |
| EEPROM Größe                      | -                                             |
| Datenwandler                      | -                                             |
| Kerngröße                         | 8-Bit                                         |
| Core-Prozessor                    | Z8                                            |
| Connectivity                      | EBI/EMI                                       |
