| Kategorie                         | Integrierte Schaltungen (ICs) > Logik - Flip Flops |
| Teilstatus                        | 2637 pcs Stock                                     |
| Spannungsversorgung               | 4.5 V ~ 5.5 V                                      |
| Art                               | D-Type                                             |
| Trigger-Typ                       | Positive Edge                                      |
| Serie                             | 74AS                                               |
| Verpackung                        | Tube                                               |
| Verpackung / Gehäuse              | 16-DIP (0.300", 7.62mm)                            |
| Ausgabetyp                        | Differential                                       |
| Betriebstemperatur                | 0°C ~ 70°C (TA)                                    |
| Anzahl der Elemente               | 1                                                  |
| Anzahl der Bits pro Element       | 4                                                  |
| Befestigungsart                   | Through Hole                                       |
| Max Propagation Delay @ V, Max CL | 10ns @ 5V, 50pF                                    |
| Funktion                          | Master Reset                                       |
| Strom - Ruhende                   | 34mA                                               |
| Strom - hoch, niedrig             | 2mA, 20mA                                          |
| Uhrfrequenz                       | 100MHz                                             |
