| Kategorie                         | Integrierte Schaltungen (ICs) > Eingebettet -      |
| Teilstatus                        | 2686 pcs Stock                                     |
| Spannung - Versorgung (Vcc / Vdd) | 1.8 V ~ 3.6 V                                      |
| Supplier Device-Gehäuse           | 24-QFN (4x4)                                       |
| Geschwindigkeit                   | 25MHz                                              |
| Serie                             | C8051F9xx                                          |
| RAM-Größe                         | 512 x 8                                            |
| Programmspeichertyp               | FLASH                                              |
| Programmspeichergröße             | 8KB (8K x 8)                                       |
| Peripherals                       | Brown-out Detect/Reset, POR, PWM, Temp Sensor, WDT |
| Verpackung                        | Tube                                               |
| Verpackung / Gehäuse              | 24-WFQFN Exposed Pad                               |
| Oszillatortyp                     | Internal                                           |
| Betriebstemperatur                | -40°C ~ 85°C (TA)                                  |
| Anzahl der E / A                  | 17                                                 |
| EEPROM Größe                      | -                                                  |
| Datenwandler                      | A/D 10x12b                                         |
| Kerngröße                         | 8-Bit                                              |
| Core-Prozessor                    | CIP-51 8051                                        |
| Connectivity                      | SMBus (2-Wire/I²C), SPI, UART/USART                |
