| Artikelnummer                     | PIC16F737-E/SP                                |
| Hersteller                        | Micrel / Microchip Technology                 |
| Beschreibung                      | IC MCU 8BIT 7KB FLASH 28SDIP                  |
| Kategorie                         | Integrierte Schaltungen (ICs) > Eingebettet - |
| Teilstatus                        | 2629 pcs Stock                                |
| Spannung - Versorgung (Vcc / Vdd) | 4 V ~ 5.5 V                                   |
| Supplier Device-Gehäuse           | 28-SPDIP                                      |
| Geschwindigkeit                   | 20MHz                                         |
| Serie                             | PIC® 16F                                      |
| RAM-Größe                         | 368 x 8                                       |
| Programmspeichertyp               | FLASH                                         |
| Programmspeichergröße             | 7KB (4K x 14)                                 |
| Peripherals                       | Brown-out Detect/Reset, POR, PWM, WDT         |
| Verpackung                        | Tube                                          |
| Verpackung / Gehäuse              | 28-DIP (0.300", 7.62mm)                       |
| Oszillatortyp                     | Internal                                      |
| Betriebstemperatur                | -40°C ~ 125°C (TA)                            |
| Anzahl der E / A                  | 25                                            |
| EEPROM Größe                      | -                                             |
| Datenwandler                      | A/D 11x10b                                    |
| Kerngröße                         | 8-Bit                                         |
| Core-Prozessor                    | PIC                                           |
| Connectivity                      | I²C, SPI, UART/USART                          |
