|----------------------------------|--------------------------------------------------|
| Artikelnummer                    | MCP4161T-104E/SN                                 |
| Hersteller                       | Micrel / Microchip Technology                    |
| Beschreibung                     | IC POT DGTL SNGL 100K SPI 8SOIC                  |
| Kategorie                        | Integrierte Schaltungen (ICs) > Datenerfassung - |
| Teilstatus                       | 2685 pcs Stock                                   |
| Spannungsversorgung              | 1.8 V ~ 5.5 V                                    |
| Toleranz                         | ±20%                                             |
| Temperaturkoeffizient (Typ)      | 150 ppm/°C                                       |
| Verjüngen                        | Linear                                           |
| Supplier Device-Gehäuse          | 8-SOIC                                           |
| Serie                            | WiperLock™                                       |
| Widerstand - Wischer (Ohm) (Typ) | 75                                               |
| Widerstand (Ohm)                 | 100k                                             |
| Verpackung                       | Tape & Reel (TR)                                 |
| Verpackung / Gehäuse             | 8-SOIC (0.154", 3.90mm Width)                    |
| Betriebstemperatur               | -40°C ~ 125°C                                    |
| Anzahl der Gewindebohrer         | 257                                              |
| Zahl der Schaltkreise            | 1                                                |
| Speichertyp                      | Non-Volatile                                     |
| Schnittstelle                    | SPI                                              |
| Eigenschaften                    | -                                                |
| Konfiguration                    | Potentiometer                                    |
