| Beschreibung            | RF TXRX MODULE CELLULAR MMCX ANT                            |
| Kategorie               | <a href="#">RF / IF und RFID &gt; RF Transceiver Module</a> |
| Teilstatus              | 2538 pcs Stock                                              |
| Spannungsversorgung     | 5V                                                          |
| Serie                   | SocketModem® GPRS                                           |
| Serielle Schnittstellen | UART                                                        |
| Empfindlichkeit         | -                                                           |
| RF Familie / Standard   | Cellular                                                    |
| Protokoll               | GPRS, GSM                                                   |
| Leistung                | -                                                           |
| Verpackung              | Tray                                                        |
| Verpackung / Gehäuse    | Module                                                      |
| Betriebstemperatur      | -30°C ~ 70°C                                                |
| Befestigungsart         | Through Hole                                                |
| Modulation              | -                                                           |
| Speichergroße           | -                                                           |
| Frequenz                | 850MHz, 900MHz, 1.8GHz, 1.9GHz                              |
| Datenrate               | 115.2kbps                                                   |
| Strom - senden          | 400mA                                                       |
| Strom - empfangen       | 400mA                                                       |
| Antennentyp             | Not Included, MMCX                                          |
