Spezifikationen

|                            |                                                |
|----------------------------|------------------------------------------------|
| Teilenummer                | MIC2086-MBQS                                   |
| Hersteller                 | Micrel / Microchip Technology                  |
| Beschreibung               | IC CTRLR HOW SWAP SGL 20-QSOP                  |
| Kategorie                  | Integrierte Schaltungen (ICs) > PMIC-Hot-Swap- |
| Teilstatus                 | 2622 pcs Stock                                 |
| Spannungsversorgung        | 2.3 V ~ 16.5 V                                 |
| Art                        | Hot Swap Controller                            |
| Supplier Device-Gehäuse    | 20-QSOP                                        |
| Serie                      | -                                              |
| Programmierbare Funktionen | Current Limit, Fault Timeout, Slew Rate        |
| Verpackung                 | Tube                                           |
| Verpackung / Gehäuse       | 20-SSOP (0.154", 3.90mm Width)                 |
| Betriebstemperatur         | -40°C ~ 85°C                                   |
| Anzahl der Kanäle          | 1                                              |
| Befestigungsart            | Surface Mount                                  |
| Interne (r)                | No                                             |
| Eigenschaften              | Auto Retry, OVP                                |
| Feature Pins               | CFILTER, COMP+, COMP-, COMPOUT, CPOR, CRWBR,   |
| Strom - Versorgung         | 1.6mA                                          |
| Strom - Ausgabe (max)      | -                                              |
| Anwendungen                | InfiniBand™                                    |
