| Hersteller                        | Power Integrations                                    |
| Beschreibung                      | IC OFFLINE SWIT OTP OCP CV 8DIP                       |
| Kategorie                         | Integrierte Schaltungen (ICs) > PMIC - AC-DC-Wandler, |
| Teilstatus                        | 5470 pcs Stock                                        |
| Spannung - Versorgung (Vcc / Vdd) | -                                                     |
| Spannung - Durchschlag            | 725V                                                  |
| Topologie                         | Flyback                                               |
| Supplier Device-Gehäuse           | DIP-8C                                                |
| Serie                             | LinkSwitch®-CV                                        |
| Leistung (W)                      | 11W                                                   |
| Verpackung                        | Tube                                                  |
| Verpackung / Gehäuse              | 8-DIP (0.300", 7.62mm), 7 Leads                       |
| Ausgangsisolierung                | Isolated                                              |
| Betriebstemperatur                | -40°C ~ 150°C (TJ)                                    |
| Befestigungsart                   | Through Hole                                          |
| Interne (r)                       | Yes                                                   |
| Frequenz - Umschaltung            | 100kHz                                                |
| Fehlerschutz                      | Current Limiting, Open Loop, Over Temperature, Short  |
| Auslastungsgrad                   | 54%                                                   |
| Kontrollfunktionen                | -                                                     |
