| Hersteller                        | Micrel / Microchip Technology                 |
| Beschreibung                      | IC MCU 8BIT 32KB FLASH 28SOIC                 |
| Kategorie                         | Integrierte Schaltungen (ICs) > Eingebettet - |
| Teilstatus                        | 2592 pcs Stock                                |
| Spannung - Versorgung (Vcc / Vdd) | 3 V ~ 3.6 V                                   |
| Supplier Device-Gehäuse           | 28-SOIC                                       |
| Geschwindigkeit                   | 48MHz                                         |
| Serie                             | AT89C513x                                     |
| RAM-Größe                         | 1.25K x 8                                     |
| Programmspeichertyp               | FLASH                                         |
| Programmspeichergröße             | 32KB (32K x 8)                                |
| Peripherals                       | LED, POR, PWM, WDT                            |
| Verpackung                        | Tube                                          |
| Verpackung / Gehäuse              | 28-SOIC (0.295", 7.50mm Width)                |
| Oszillatortyp                     | Internal                                      |
| Betriebstemperatur                | -40°C ~ 85°C (TA)                             |
| Anzahl der E / A                  | 18                                            |
| EEPROM Größe                      | 4K x 8                                        |
| Datenwandler                      | -                                             |
| Kerngröße                         | 8-Bit                                         |
| Core-Prozessor                    | 80C51                                         |
| Connectivity                      | I²C, SPI, UART/USART, USB                     |
