

| Spezifikationen          |                                                     |
|--------------------------|-----------------------------------------------------|
| Teilenummer              | B82432T1473K                                        |
| Hersteller               | EPCOS                                               |
| Beschreibung             | B82432T1473K EPCOS (TDK)                            |
| Kategorie                | Induktoren, Spulen, Drosseln > Fixed Induktivitäten |
| Teilstatus               | 15444 pcs Stock                                     |
| Art                      | Wirewound                                           |
| Toleranz                 | ±10%                                                |
| Supplier Device-Gehäuse  | 1812                                                |
| Größe / Dimension        | 0.177" L x 0.126" W (4.50mm x 3.20mm)               |
| Abschirmung              | Unshielded                                          |
| Serie                    | SIMID                                               |
| Bewertungen              | AEC-Q200                                            |
| Q @ Frequenz             | 10 @ 2.52MHz                                        |
| Verpackung               | Tape & Reel (TR)                                    |
| Verpackung / Gehäuse     | 1812 (4532 Metric)                                  |
| Betriebstemperatur       | -55°C ~ 150°C                                       |
| Befestigungsart          | Surface Mount                                       |
| Material - Kern          | Ferrite                                             |
| Induktivität             | 47µH                                                |
| Höhe - eingesteckt (max) | 0.134" (3.40mm)                                     |
| Frequenz - Prüfung       | 2.52MHz                                             |
| Frequenz - Eigenresonanz | 11MHz                                               |
| DC-Widerstand (DCR)      | 1.35 Ohm Max                                        |
| Aktuelle Bewertung       | 350mA                                               |
| Strom - Sättigung        | -                                                   |

|                                                                                                                                                                                   |                                                                                                                                                                         |                                                                                                                                                              |                                                                                                                                                                           |
