| Beschreibung                      | IC MCU 8BIT 4KB FLASH 16DIP                   |
| Kategorie                         | Integrierte Schaltungen (ICs) > Eingebettet - |
| Teilstatus                        | 2581 pcs Stock                                |
| Spannung - Versorgung (Vcc / Vdd) | 1.8 V ~ 3.6 V                                 |
| Supplier Device-Gehäuse           | 16-DIP                                        |
| Geschwindigkeit                   | 20MHz                                         |
| Serie                             | S08                                           |
| RAM-Größe                         | 256 x 8                                       |
| Programmspeichertyp               | FLASH                                         |
| Programmspeichergröße             | 4KB (4K x 8)                                  |
| Peripherals                       | LVD, PWM, WDT                                 |
| Verpackung                        | Tube                                          |
| Verpackung / Gehäuse              | 16-DIP (0.300", 7.62mm)                       |
| Oszillatortyp                     | Internal                                      |
| Betriebstemperatur                | -40°C ~ 85°C (TA)                             |
| Anzahl der E / A                  | 12                                            |
| EEPROM Größe                      | -                                             |
| Datenwandler                      | A/D 8x12b                                     |
| Kerngröße                         | 8-Bit                                         |
| Core-Prozessor                    | S08                                           |
| Connectivity                      | I²C, LIN, SCI, SPI                            |
