

| Spezifikationen           |                              |
|---------------------------|------------------------------|
| Artikelnummer             | STM332U                      |
| Hersteller                | EnOcean                      |
| Beschreibung              | MODULE TEMPERATURE SENSOR    |
| Kategorie                 | RF / IF und RFID > HF-Sender |
| Teilstatus                | 2535 pcs Stock               |
| Spannungsversorgung       | 3V                           |
| Serie                     | Scavenger                    |
| Leistung                  | -                            |
| Verpackung                | Tray                         |
| Verpackung / Gehäuse      | Module                       |
| Betriebstemperatur        | -20°C ~ 60°C                 |
| Modulation oder Protokoll | FSK                          |
| Speichergröße             | 32kB Flash, 2kB RAM          |
| Frequenz                  | 902MHz                       |
| Eigenschaften             | -                            |
| Datenrate (Max)           | 125kbps                      |
| Data Interface            | Connector                    |
| Strom - senden            | -                            |
| Anwendungen               | General Purpose              |
| Antennenanschluss         | On-Board, Whip               |
