Spezifikationen

|                                          |                                                        |
|------------------------------------------|--------------------------------------------------------|
| Artikelnummer                            | MIC5321-SSYD6-TR                                       |
| Hersteller                               | Micro Commercial Components (MCC)                      |
| Beschreibung                             | IC REG LDO 3.3V 0.15A TSOT23-6                         |
| Kategorie                                | Integrierte Schaltungen (ICs) > PMIC-Spannungsregler-  |
| Teilstatus                               | 2564 pcs Stock                                         |
| Spannung / Strom - Ausgabe 1             | 300mA                                                  |
| Spannung - Eingang                       | 2.3 V ~ 5.5 V                                          |
| Spannung - Durchschlag                   | TSOT-23-6                                              |
| Serie                                    | -                                                      |
| RoHS Status                              | Cut Tape (CT)                                          |
| Reglertopologie                          | 150mA                                                  |
| Polarisation                             | SOT-23-6 Thin, TSOT-23-6                               |
| Andere Namen                             | 1611-MIC5321-SSYD6-CT                                  |
| Betriebstemperatur                       | -40°C ~ 125°C                                          |
| Anzahl der Regler                        | 0.035V @ 150mA                                         |
| Befestigungsart                          | Surface Mount                                          |
| Feuchtigkeitsempfindlichkeitsstufe (MSL) | 1 (Unlimited)                                          |
| Hersteller-Teilenummer                   | MIC5321-SSYD6-TR                                       |
| Frequenz - Umschaltung                   | Positive Fixed                                         |
| Expanded Beschreibung                    | Linear Voltage Regulator IC Positive Fixed Output 3.3V |
| Beschreibung                             | IC REG LDO 3.3V 0.15A TSOT23-6                         |
| Strom - Ausgabe                          | 3.3V                                                   |
| Strom - Grenze (min)                     | 2                                                      |
| Konfiguration                            | Lead free                                              |
