| Kategorie                      | Integrierte Schaltungen (ICs) > Datenerfassung - |
| Teilstatus                     | 2610 pcs Stock                                   |
| Spannung - Versorgung, digital | 3 V ~ 9 V                                        |
| Spannung - Versorgung, analog  | 3 V ~ 9 V                                        |
| Supplier Device-Gehäuse        | 8-PDIP                                           |
| Serie                          | microPOWER™                                      |
| Abtastrate (pro Sekunde)       | 33k                                              |
| Referenztyp                    | External                                         |
| Verhältnis - S / H: ADC        | 1:1                                              |
| Verpackung                     | Tube                                             |
| Verpackung / Gehäuse           | 8-DIP (0.300", 7.62mm)                           |
| Betriebstemperatur             | -40°C ~ 85°C                                     |
| Anzahl der Eingänge            | 1                                                |
| Anzahl der Bits                | 8                                                |
| Anzahl der A / D-Wandler       | 1                                                |
| Eingabetyp                     | Differential, Single Ended                       |
| Eigenschaften                  | -                                                |
| Data Interface                 | SPI                                              |
| Konfiguration                  | S/H-ADC                                          |
| Die Architektur                | SAR                                              |
