| Artikelnummer                | MIC2211-FGBML-TR                                      |
| Hersteller                   | Micrel / Microchip Technology                         |
| Beschreibung                 | IC REG LDO 1.5V/1.8V 10MLF                            |
| Kategorie                    | Integrierte Schaltungen (ICs) > PMIC-Spannungsregler- |
| Teilstatus                   | 2662 pcs Stock                                        |
| Spannung - Ausgabe           | 1.5V, 1.8V                                            |
| Spannung - Eingang           | 2.25 V ~ 5.5 V                                        |
| Spannung - Aussetz (typisch) | 0.12V @ 150mA, 0.24V @ 300mA                          |
| Supplier Device-Gehäuse      | 10-MLF® (3x3)                                         |
| Serie                        | -                                                     |
| Reglertopologie              | Positive Fixed                                        |
| Verpackung                   | Tape & Reel (TR)                                      |
| Verpackung / Gehäuse         | 10-VDFDN Exposed Pad, 10-MLF®                         |
| Betriebstemperatur           | -40°C ~ 125°C                                         |
| Anzahl der Regler            | 2                                                     |
| Befestigungsart              | Surface Mount                                         |
| Strom - Ausgabe              | 150mA, 300mA                                          |
| Strom - Grenze (min)         | 150mA, 300mA                                          |
