

| Spezifikationen                           |                                            |
|-------------------------------------------|--------------------------------------------|
| Artikelnummer                             | CAV93C46VE-GT3                             |
| Hersteller                                | AMI Semiconductor / ON Semiconductor       |
| Beschreibung                              | IC EEPROM 1K SPI 2MHZ                      |
| Kategorie                                 | Integrierte Schaltungen (ICs) > Erinnerung |
| Teilstatus                                | 2683 pcs Stock                             |
| Schreibzyklus Zeit - Wort, Seite          | -                                          |
| Spannungsversorgung                       | 2.5 V ~ 5.5 V                              |
| Technologie                               | EEPROM                                     |
| Serie                                     | Automotive, AEC-Q100                       |
| Betriebstemperatur                        | -40°C ~ 125°C (TA)                         |
| Feuchtigkeitsempfindlichkeitsniveau (MSL) | 1 (Unlimited)                              |
| Speichertyp                               | Non-Volatile                               |
| Speichergröße                             | 1Kb (128 x 8)                              |
| Speicherschnittstelle                     | SPI                                        |
| Speicherformat                            | EEPROM                                     |
| Hersteller Standard Vorlaufzeit           | 10 Weeks                                   |
| Bleifreier Status / RoHS-Status           | Lead free / RoHS Compliant                 |
| detaillierte Beschreibung                 | EEPROM Memory IC 1Kb (128 x 8) SPI 2MHz    |
| Uhrfrequenz                               | 2MHz                                       |
|                                           |                                            |
