Spezifikationen

|                         |                                                         |
|-------------------------|---------------------------------------------------------|
| Artikelnummer           | M2S090T-1FGG484M                                        |
| Hersteller              | Microsemi                                               |
| Beschreibung            | IC FPGA SOC 90K LUTS 484FBGA                            |
| Kategorie               | Integrierte Schaltungen (ICs) > Eingebettet - System On |
| Teilstatus              | 2561 pcs Stock                                          |
| Supplier Device-Gehäuse | 484-FPBGA (23x23)                                       |
| Geschwindigkeit         | 166MHz                                                  |
| Serie                   | SmartFusion®2                                           |
| Primärattribute         | FPGA - 90K Logic Modules                                |
| Peripherals             | DDR, PCIe, SERDES                                       |
| Verpackung              | Tray                                                    |
| Verpackung / Gehäuse    | 484-BGA                                                 |
| Betriebstemperatur      | -55°C ~ 125°C (TJ)                                      |
| Anzahl der E / A        | 267                                                     |
| MCU RAM                 | 64KB                                                    |
| MCU-Flash               | 512KB                                                   |
| Core-Prozessor          | ARM® Cortex®-M3                                         |
| Connectivity            | CAN, Ethernet, I²C, SPI, UART/USART, USB                |
| Die Architektur         | MCU, FPGA                                               |
