| Beschreibung                      | IC MCU 8BIT 8KB FLASH 8DIP                    |
| Kategorie                         | Integrierte Schaltungen (ICs) > Eingebettet - |
| Teilstatus                        | 2653 pcs Stock                                |
| Spannung - Versorgung (Vcc / Vdd) | 1.8 V ~ 5.5 V                                 |
| Supplier Device-Gehäuse           | 8-PDIP                                        |
| Geschwindigkeit                   | 10MHz                                         |
| Serie                             | AVR® ATtiny                                   |
| RAM-Größe                         | 512 x 8                                       |
| Programmspeichertyp               | FLASH                                         |
| Programmspeichergröße             | 8KB (4K x 16)                                 |
| Peripherals                       | Brown-out Detect/Reset, POR, PWM, WDT         |
| Verpackung                        | Tube                                          |
| Verpackung / Gehäuse              | 8-DIP (0.300", 7.62mm)                        |
| Oszillatortyp                     | Internal                                      |
| Betriebstemperatur                | -40°C ~ 85°C (TA)                             |
| Anzahl der E / A                  | 6                                             |
| EEPROM Größe                      | 512 x 8                                       |
| Datenwandler                      | A/D 4x10b                                     |
| Kerngröße                         | 8-Bit                                         |
| Core-Prozessor                    | AVR                                           |
| Connectivity                      | USI                                           |
