| Hersteller                                | Micrel / Microchip Technology                             |
| Beschreibung                              | IC OPAMP GP 1MHZ RRO SOT23-5                              |
| Kategorie                                 | Integrierte Schaltungen (ICs) > Linear - Verstärker -     |
| Teilstatus                                | 2525 pcs Stock                                            |
| Spannungsversorgung, Single / Dual (±)    | 1.8 V ~ 6 V                                               |
| Spannung - Eingangs-Offset                | 4.5mV                                                     |
| Supplier Device-Gehäuse                   | SOT-23-5                                                  |
| Slew Rate                                 | 0.6 V/µs                                                  |
| Serie                                     | Automotive, AEC-Q100                                      |
| Verpackung                                | Tape & Reel (TR)                                          |
| Verpackung / Gehäuse                      | SC-74A, SOT-753                                           |
| Ausgabetyp                                | Rail-to-Rail                                              |
| Andere Namen                              | MCP6001T-I/OTVAOTR                                        |
| Betriebstemperatur                        | -40°C ~ 85°C                                              |
| Zahl der Schaltkreise                     | 1                                                         |
| Befestigungsart                           | Surface Mount                                             |
| Feuchtigkeitsempfindlichkeitsniveau (MSL) | 1 (Unlimited)                                             |
| Bleifreier Status / RoHS-Status           | Lead free / RoHS Compliant                                |
| Verstärkungsbandbreitenprodukt            | 1MHz                                                      |
| detaillierte Beschreibung                 | General Purpose Amplifier 1 Circuit Rail-to-Rail SOT-23-5 |
| Strom - Versorgung                        | 100µA                                                     |
| Strom - Ausgang / Kanal                   | 23mA                                                      |
| Strom - Eingangsruhe                      | 1pA                                                       |
| Basisteilenummer                          | MCP6001                                                   |
| Verstärkertyp                             | General Purpose                                           |
