| Beschreibung                       | SENSOR TEMP I2C/SMBUS 8SOIC                      |
| Kategorie                          | Sensoren, Transducer > Temperatursensoren-Analog |
| Teilstatus                         | 735 pcs Stock                                    |
| Spannungsversorgung                | 3 V ~ 5.5 V                                      |
| Testbedingung                      | 0°C ~ 50°C (150°C)                               |
| Supplier Device-Gehäuse            | 8-SOIC                                           |
| Serie                              | -                                                |
| Sensortyp                          | Digital, Local                                   |
| Sensing Temperatur - Fernbedienung | -                                                |
| Sensing Temperatur - Lokal         | -55°C ~ 150°C                                    |
| Lösung                             | 12 b                                             |
| Verpackung                         | Tube                                             |
| Verpackung / Gehäuse               | 8-SOIC (0.154", 3.90mm Width)                    |
| Ausgabetyp                         | I²C/SMBus                                        |
| Betriebstemperatur                 | -55°C ~ 150°C                                    |
| Befestigungsart                    | Surface Mount                                    |
| Eigenschaften                      | Output Switch, Programmable Limit, Shutdown Mode |
| Genauigkeit - Höchste (Niedrigste) | ±1°C (±2.8°C)                                    |
