A photograph of the EZ80F91 kit components. At the top are two yellow circular components, likely LEDs, each with a label. Below them is a small black integrated circuit (IC) mounted on a white PCB. To the left is a black rectangular component, possibly a battery or a small display. In the center are several small electronic components, including resistors and capacitors. To the right is a black cable with a connector. At the bottom are two black rectangular components, possibly batteries or small displays.
