| Beschreibung                           | IC DRIVER MOSF QUAD 1.2A 16-SOIC                  |
| Kategorie                              | Integrierte Schaltungen (ICs) > PMIC-Gate-Treiber |
| Teilstatus                             | 2688 pcs Stock                                    |
| Spannungsversorgung                    | 4.5 V ~ 18 V                                      |
| Supplier Device-Gehäuse                | 16-SOIC                                           |
| Serie                                  | -                                                 |
| Aufstieg / Fallzeit (Typ)              | 14ns, 13ns                                        |
| Verpackung                             | Tube                                              |
| Verpackung / Gehäuse                   | 16-SOIC (0.295", 7.50mm Width)                    |
| Betriebstemperatur                     | -40°C ~ 85°C (TA)                                 |
| Anzahl der Treiber                     | 4                                                 |
| Befestigungsart                        | Surface Mount                                     |
| Logikspannung - VIL, VIH               | 0.8V, 2.4V                                        |
| Eingabetyp                             | Inverting                                         |
| Gate-Typ                               | N-Channel, P-Channel MOSFET                       |
| Angetriebene Konfiguration             | Low-Side                                          |
| Strom - Spitzenleistung (Quelle, Sink) | 1.2A, 1.2A                                        |
| Ladestrom                              | Independent                                       |
