| Beschreibung                      | IC REG CTRLR BOOST/SEPIC 24QFN                         |
| Kategorie                         | Integrierte Schaltungen (ICs) > PMIC - Spannungsregler |
| Teilstatus                        | 2618 pcs Stock                                         |
| Spannung - Versorgung (Vcc / Vdd) | 4.5 V ~ 60 V                                           |
| Topologie                         | Boost, SEPIC                                           |
| Synchrongleichrichter             | Yes                                                    |
| Supplier Device-Gehäuse           | 24-QFN (4x4)                                           |
| Serie                             | -                                                      |
| Serielle Schnittstellen           | -                                                      |
| Verpackung                        | Tape & Reel (TR)                                       |
| Verpackung / Gehäuse              | 24-WFQFN Exposed Pad                                   |
| Ausgabetyp                        | Transistor Driver                                      |
| Ausgangsphasen                    | 1                                                      |
| Ausgangskonfiguration             | Positive                                               |
| Betriebstemperatur                | -40°C ~ 125°C (TJ)                                     |
| Anzahl der Ausgänge               | 1                                                      |
| Funktion                          | Step-Up, Step-Up/Step-Down                             |
| Frequenz - Umschaltung            | 105kHz ~ 760kHz                                        |
| Duty Cycle (Max)                  | 96%                                                    |
| Kontrollfunktionen                | Current Limit, Enable, Frequency Control, Power Good,  |
| Taktsynchronisation               | No                                                     |
